Nikita Egorov

FRONTEND & WEB DEVELOPER

Telegram: @autli • GitHub: github.com/autli5 • Portfolio: **autli.ru**

PROFESSIONAL SUMMARY

Web Developer specializing in building modern, high-performance, and responsive web applications with **React** and **Next.js**. Strong focus on clean component architecture, thoughtful UI/UX, web accessibility (a11y), and Core Web Vitals optimization (Lighthouse 95+). Hands-on full-stack experience with Python (Django / DRF) and relational databases.

TECHNICAL SKILLS

Frontend:	TypeScript, JavaScript (ES6+), React 19, Next.js 16 (App Router), HTML5, CSS3
Styling & UI:	Tailwind CSS, PostCSS, CSS Modules, Feature-Sliced Design, Responsive Design, Animations
Backend & DB:	Node.js, Python, Django, Django REST Framework, PostgreSQL, RESTful APIs
Tools & Workflows:	Git, GitHub, pnpm / npm, Vite, Turbopack, ESLint, Figma, Web Analytics

FEATURED PROJECTS

Center of Tools Master (orentools.ru)

2025 | HTML, CSS, JavaScript, Django

- Engineered corporate landing page and product showcase for an equipment supplier.
- Achieved Lighthouse 95+ performance rating with <1 second loading speed.
- Implemented responsive layouts, interactive scroll animations, and validated lead forms.

Forbidden Fruit (z-plod.ru)

2025 | Python, Django, PostgreSQL, HTML, CSS

- Built an e-commerce marketplace featuring multi-role user workflows (buyer / merchant).
- Implemented live search, dynamic category filtering, shopping cart, and order processing.
- Created dedicated merchant administration dashboard for inventory management.

Lasertag Berkut Dashboard (lasergame56.ru)

2026 | Next.js, TypeScript, Tailwind CSS

- Developed a SaaS analytics portal with real-time KPI visualization charts and metrics.
- Engineered custom report builder with CSV export, dark theme support, and widget customization.
- Modular type-safe codebase structured with Next.js App Router.

freebie — E-commerce Platform

2026 | React (Vite), TypeScript, Django REST Framework

- Full-stack SPA featuring real-time synchronized shopping cart (React Context) and promo codes.
- Django REST Framework backend for product management, user authentication, and sessions.

Personal Portfolio & Interactive Showcase

2026 | Next.js 16, React 19, TypeScript, Tailwind CSS

- Crafted custom cursor physics, flashlight text typography, and custom context menu.
- Clean Feature-Sliced Design architecture, high performance, and full SEO semantics.
